

LINDEMANN
GROUP

Company Profile 2021

INNOVATIONSKRAFT BY NATURE

ABOUT

We are German Architects and Engineers of plus energy buildings and smart city megaprojects.

The challenge?
Our vision is the emission-free, electrified city.

Founded 2015, merging Lindemann Architects and White Sky Group in Germany, Lindemann is best known for designing most avantgarde plus energy buildings and award winning smart city megaprojects in GCC.

VENTURE

The growing venture works on designing iconic, intelligent buildings and real estate projects of all sizes.

From 300 sqm to 8 Mio. sqm. From project development, analysis, early design, research and feasibility studies to building information modeling (BIM) and final construction.

Services include Architecture, Design, Planning, Consulting, Research and new Ventures.

Lindemann has partnerships in German aviation, automotive and construction industries.

Lindemann participates in new ventures for future technologies and innovation in construction, robotics and bionics.

LOCATIONS

Currently, Lindemann has offices in Abu Dhabi, Bad Oeynhausen, Cologne and Munich.

The range of projects locations is truly international, from Germany to the Kingdom of Saudi Arabia and from the United Arab Emirates to UK and Australia.
